# POLICIES

## QUALITY POLICY STATEMENT

DMTC principal objective is to provide our clients with quality, innovative and cost effective construction and engineering solutions for their projects.

DMTC shall ensure that all items either constructed by DMTC or that of its subcontractors and suppliers shall meet the project quality requirements.

DMTC has established procedures based on ISO 9001: 2015. The DMTC Management Team is responsible for the quality of the work performed by DMTC's own forces, its subcontractors and suppliers. The successful implementation of the quality control policies and procedures lies in the capabilities and experience of the Management team together with the supplies workforce working together with Team Members dedicated to achieving a common goal – To Produce quality lasting products.

It is the policy of DMTC that all components of construction shall be performed in accordance with requirements of the Owner'Contract Specifications , the approved drawing and the implementation of the Quality Plan.

### DMTC : Objectives can be summarized to the following

- ❖ To complete the project right the first time, on schedule and ensure quality workmanship at all stages of the project through the utilization of a Quality Control Program.
- ❖ To provide our clients with quality products and services that conform to the applicable contract requirements, rules and regulations, whether supplied directly, through subcontractors or the Owner.
